

# ABOUT PRO GATE

Pro Gate is BMX-meets-real-deal-engineering. All our products start with rider, track-operator and race-promoter input. Next, professional engineers who create machines for major manufacturing companies get to work designing and building.

Then it's back to the track, where prototypes are tested, and the fine-tuning that brings together those two very-different worlds takes place.

The end result is a family of products that BMXers around the world can count on, year in and year out. A product line that meets, or exceeds, global standards for safety, operability and durability.

Those who appreciate great product design know the level of innovation and care by which Pro Gate products make their way to market. Those who ride know, "it just works...every time."

## About Pro Gate Crescent-8

A modular system that can be built to the specs of the track or promoter, Pro Gate's Crescent system is the latest-and-greatest in professional starting systems. The "crescent" form factor offers the heft of a full-metal gate, and pinch-free operation when hands and feet land where they shouldn't be.

On the Cover: A full Crescent-8 system, set up for the quality-assurance process before shipping.

OTHER PRODUCTS BY

## STRAIGHT-8

The standard for the Olympic Games, UCI Supercross, and the UCI World Championships, this is the gate that's used when it's all on the line.

## STRAIGHT-4

The gate system of choice for the perfectionist Four-cross promoter looking for reliable, portable gear that can handle any terrain.

## CRESCENT LITE

When you already have a hill that thrills, you can still benefit from the safety and reliability of a Pro Gate within your existing infrastructure.

## JUNIOR

Our wildly popular training system, brings all the pieces together to put Pro Gate quality in your driveway. Pro Quality. Consumer Price.

## GATEKEEPER

Our "Gatekeeper" line of replacement parts, accessories and maintenance products ensures your timing is spot-on—every time, in every way.

# CRESCENT-8

## PROFESSIONAL STARTING SYSTEM

As the world standard for UCI Challenge Classes, our Crescent starting system is another example of how Pro Gate is working to evolve safety and innovation in the sport. Following a successful rollout last year, Crescent Pro Gate is catching on worldwide as the de-facto “safety gate” for top tracks.

As a modular system, choose the full kit (starting deck, drop section and launch ramp), or “sink” only the drop section into a pre-existing starting hill. Crescent comes equipped with the hyper-reliable Pro Gate ram, brain box, and starter controls; and we offer a deep list of “original equipment” accessories and options.

Call today for a free consultation on how the Crescent system and our “Gatekeeper” line of maintenance products can work for your track. Our staff can also be on-site to ensure your installation goes down as smoothly as your gate.
